PERSONAL PROFILE

Graduate student with broad-ranging expertise in IT and Cybersecurity who can work independently and as a supportive team member. Drive for entrepreneurship with four years of experience in web and software development. Studying Master of Science in Security and Resilience at the Institute of Security Science and Technology (Imperial College London) from September 2023. Seeking PhD opportunities, with a preferred start date in 2025.

TECHNICAL SKILLS

- **Programming:** Python, C, JavaScript, YASM, PHP, SQL, LaTeX, MATLAB
- **Cybersecurity:** Metasploit, SQLMap, Wireshark, Burpsuite, Nmap, GoBuster, FTK Suite, Autopsy, Cutter, FFUF, GDB, Packet Tracer, Elastic, Git, Docker
- **Virtualization:** VMWare Fusion, VirtualBox, Hyper-V
- **Languages:** English and Hungarian - Bilingual, German – Elementary

EXPERIENCE

E-Commerce Tech Graduate, First Class Watches **June 2023 – Present**

- Developed websites.

Director, Cybnode Ltd **July 2021 – June 2023**

- Created a start-up while pursuing university studies, specializing in developing websites and small-scale software solutions for small-to-medium enterprises (SMEs). Spearheaded the setup of webservers and implementation of robust security controls to safeguard sensitive data.

EDUCATION

***MSc* Security and Resilience, Imperial College London** **September 2023 – Present**

- In Progress (Part-time)
- Relevant modules: *Network and Web Security, Advanced Computer Security, Infrastructure and Transport Security, Electronic and Natural Sensors, Security in Context.*

***BSc* Cybersecurity, Coventry University** **September 2020 – July 2023**

- First Class Honors (83%, equivalent to 4.0 GPA).
- Relevant modules: *Computer Systems and Networks, Web Security, Practical Cryptography, Practical Pen-Testing, Programming & Algorithms, Applied Forensics, Security Audit, Reverse Engineering, Security Management.*

ADDITIONAL COURSES

Human Behaviour and Economic Activity, University of Oxford **April 2023 – Present**

- Exploring the foundations of neoclassical economics and the recent challenges to its assumption of rationality. Learning about current developments that reflect our understanding of the real-world including scarcity and attention to decision making.

Europe in the Cold War: 1945 - 1961, University of Oxford **January 2023 – February**

- Attended a series of lectures focused on the Cold War and its impact on Europe between 1947-61. Explored the political, cultural, moral, and international relations aspects of the Cold War, including the impact of NATO, Germany, France, and Italy.

Grade 8 Jazz Saxophone (with Distinction), Trinity College London **September 2020**

- Achieved a distinction in a grade 8 jazz saxophone music exam. Helps me maintain focus in my academic studies.

AWARDS

Imperial College London **September 2023**

- Institute for Security Science and Technology (ISST) Scholarship

Coventry University **July 2023**

- Course Tutor's Prize for Best Overall BSc Project
- Undergraduate Student of the Year Nominee
